

**13th FIG** Symposium on Deformation Measurement and Analysis  
**4th IAG** Symposium on Geodesy for Geotechnical and Structural Engineering

LNEC, LISBON 2008 May 12-15

AT-A-GLANCE SYMPOSIUM PROGRAM

	Monday 12	Tuesday 13	Wednesday 14	Thursday 15			
8:00	registration			<b>TECHNICAL VISIT</b> <i>departure 08:00</i>			
8:30							
9:00	<b>Opening Ceremony</b> keynote speeches	MST1	GDF1		MST3	MOD3	
9:30							
10:00	coffee break						
10:30	coffee break						
11:00	MTT	EGMT	MOD2		GDF2	LSS	GNSS2
11:30							
12:00	lunch						
12:30							
13:00	lunch						
13:30							
14:00	MOD1	GNSS1	RDR1		MST2	EQP2	MOD4
14:30							
15:00	coffee break						
15:30	coffee break						
16:00	EQP1		PST1		PST2		
16:30	Tools for Measuring the Changes: the Exhibitor's session		RDR2		<b>Closing Ceremony</b>		
17:00					Meeting WG6.4TF5 "Fibre Optic Sensors"		
17:30							
18:00							
18:30							
19:00	Ice breaker party		<b>Social Dinner</b>				
19:30							
20:00							
20:30							
21:00							
21:30							

<b>MOD</b>	Modelling
<b>EGMT</b>	Engineering geodesy for multi-technique local survey ties
<b>MTT</b>	Multitechniques
<b>GNSS</b>	GNSS
<b>EQP</b>	Equipment
<b>MST</b>	Monitoring of structures
<b>GDF</b>	Geodeformations
<b>RDR</b>	Radar
<b>LSS</b>	Laserscanning
<b>PST</b>	Poster Session

On Friday, the 16th of May, there will be a presentation / demonstration of PPM and SAA technology, by Measurand Geotechnical, from Canada (Room #2, 15:00)
